Comprehensive Needs Assessment

Demographics

Demographics Summary

Sierra Blanca ISD is a small community located in a rural area in far West Texas. Sierra Blanca is located in Hudspeth County in an area consisting of Hudspeth County Sheriff's department, Hudspeth County Law Enforcement Center and nearing border line with United States Border Patrol.

Sierra Blanca ISD tax base is primarily residential.

Sierra Blanca ISD student population consists of 3.4% African American, 71.2% Hispanic, 23.7% White, .8% Asian.

Special population demographics consists of Dyslexia 4.2%, GT 0%, EB 2.25%, Sped 16.1%, 8.5% At Risk and 77.1% Economically Disadvantaged.

Sierra Blanca ISD is a single campus district consisting of students in grades Pre-K to 12th.

Sierra Blanca ISD enrollment consists of 113 and remains relatively stable fluctuating up and down slightly. The male population is 40% and female population is 60%.

Sierra Blanca ISD staff numbers total 24. There are 12 teachers consisting of 14.3% (Beginning), 34.3% (1-5years), 8.6% (6-10 years), 8.6% (11-20 years). There are an additional 10 support staff consisting of cafeteria, custodial, maintenance and paraprofessionals and 4 office staff. There are 2 administrative staff.

Average teacher to student ratio varies according to the grade level, but is around 8-10 per grade. The exception is our 1st grade group with 16 students.

Sierra Blanca has exceptional students and minimal serious behavior issues.

Demographics Strengths

Sierra Blanca enrollment remains steady from year to year.

Sierra Blanca serves one campus with all grade levels so access for collaboration of teachers is efficient.

Sierra Blanca has small class sizes.

Problem Statements Identifying Demographics Needs

Problem Statement 1: Sierra Blanca ISD's economically disadvantaged students tend to show little improvement from year to year. **Root Cause:** Access to resources and education in the home is limited due to family makeup and many students living with extended family with limited educational background in vocabulary and life experiences.

Student Learning

Student Learning Summary

The lack of knowledgeable leadership and support staff resulted in many compliance pieces for the district to be insufficient or inadequate. Support for teachers in the classroom from professional development to instructional supplies were lacking and directly impacted the level of instruction. Minimal students had been tested or enrolled in dual credit courses or prepared adequately for CCMR. Graduation plans were not in place and data was not tracked to ensure grade level mastery. There is a high percentage of Special Education students and a lack of systems for identifying other special population areas. Current practices and strategies are not applied for working with the special population areas. Overall the district rating has improved from Pre-Covid 2018-2019 at a C to 2021-2022 moving to a B.

Student Learning Strengths

Small class sizes support more individualized instruction resulting in student growth being consistent per student.

The district rating overall for 2021-2022 was a "B".

Implementation of new curriculum and instruction is reduced in cost due to the small class sizes.

District Processes & Programs

District Processes & Programs Summary

Sierra Blanca ISD faces challenges as it is a very remote area with a low socio-economic population with limited family support in educational foundations. Many of the students are living with extended family or multi family households and time for educational support is limited or stretched between various grades and family members. Due to the geographical area and a lack of housing, it is a challenge to recruit and retain certified teachers. There is also a struggle to obtain training and professional development for teacher growth. The tax revenue consisting of residential income causes budget to be low and inadequate funds to support instruction, curriculum and assessment preparation and tools to support a high level of learning. Sierra Blanca has had multiple turnover in upper administration and non certified leadership in the principal role in order to offer growth and support for teacher instruction.

District Processes & Programs Strengths

Sierra Blanca ISD has been fortunate for the past 2 years to offer a retention bonus and cost of living stipend to encourage retention of currently employed teachers.

Sierra Blanca ISD continues to search for additional funding opportunities in order to supplement the budget for instructional needs.

Problem Statements Identifying District Processes & Programs Needs

Problem Statement 1: Curriculum and Instruction resources and supports are not sufficient to overcome the educational challenges of our students and their perspective performance on state exams. **Root Cause:** Students have limited reading and writing exposure outside of the classroom. Background knowledge due to lack of resources and exposure in the home causes a deficiency in vocabulary knowledge.

Perceptions

Perceptions Summary

Sierra Blanca ISD has great students and staff overall. The environment is very much a community effort in support of all stakeholders. A lack of exposure diminishes the importance of education and therefore limits the drive of students to pursue higher education. The accountability has favored the district to date as the low numbers and class size offer a slight advantage. Sierra Blanca population is 676 and therefore the community and the school collaboration is strong.

Perceptions Strengths

The size of the community supports great collaboration within the community and the school.

Student behavior is minimal.

Problem Statements Identifying Perceptions Needs

Problem Statement 1: The lack of support in academics due to the low emphasis on higher education hinders students **Root Cause:** The importance of formal education is undervalued and the exposure or opportunity of information, testing and access to early college readiness skills are limited.
